

In Hillingdon, putting our residents first is at the heart of everything we do – it's the reason that we come to work every day. With one of the highest levels of resident satisfaction in London, we know that our employees make a valuable contribution to the services we deliver to more than 250,000 residents every day.

### The Requirement

The London Borough of Hillingdon approached DSSL group to see if they could help them in securing some of their blocks. The blocks at the time, had very minimal security. They had a small wooden gate at the entrance to the blocks, which was easily bypassed, and this led to unwanted visitors and access.

DSSL's expertise is in CCTV and Access Control but they also know of Bamford Doors, who are the experts in manufacture and installation of communal security doors.

It was very clear that both companies working together would provide the perfect solution to keep the customers of Hillingdon Council safe.

### The Brief

- ▮ To supply and install a heavy duty, powder coated door set including leading edge lock protection
- ▮ Robust and fit for purpose products
- ▮ Secured by Design accredited
- ▮ Flexible in the design
- ▮ The door will be finished in a standard RAL colour 7016 – anthracite grey

### The Results

The block has gone from having an open entrance which was accessible to anyone that desired to be in there to one that is very safe. Those living in the block will feel out of harm's way now the entrance to the block's they live in has been protected.

"It was a pleasure working alongside DSSL Group. The install was made quick and easy for us. Everyone was very considerate to the tenants in the block, they always complied with us when we asked for help. I look forward to working with them in the future." Kevin Bamford Doors

"It was great to work alongside Bamford Doors on this project, their engineers were on time and worked with us for a seamless install. The quality of the door and frame was the best I have worked with, and everything was completed as per the original plan. Pleasure to work in partnership with Bamford Doors and I look forward to the next one." Lee Vardy DSSL Group
